SUMMARY

UX Researcher with a dual background spanning design process and research methodology: a BA in Advertising Graphic Design and Multimedia (UX specialization, Figma prototyping, user testing) and an MA in Sociology (specialization: Data Analysis and Social Research). Master's thesis involved designing and conducting a mixed-methods study (IDI + quantitative survey) on Kraków residents' attitudes toward touristification. Seeking an entry-level UX Researcher / Research Specialist role.

RESEARCH & DESIGN PROJECTS

Master's Thesis — "Touristification of Kraków: Residents' Perception of the Effects of Tourism Development in Central Districts" 09/2024 – 07/2026

Jagiellonian University

- Designed and conducted 10 in-depth interviews (IDI) and a quantitative survey (446 responses) among Kraków residents; coded and thematically analyzed qualitative data in SPSS/Excel
- Translated findings into recommendations on touristification attitudes

BA Thesis Project — Redesign of the City of Nowy Targ Website 09/2020 – 07/2024

Tischner European University

- Conducted 10 in-depth interviews (IDI) and an online survey (97 responses) with residents/users
- Designed a low-fidelity prototype based on research findings
- Usability-tested the solution with 5 participants and iterated the design

EXPERIENCE

Customer Service Specialist — Lunching 08/2021 – 07/2024

Kraków

- Resolved user-app-vendor issues
- Maintained ongoing communication with users
- Coordinated the order process
- Prepared visual communication materials for new clients

Customer Contact Specialist — Alior Bank 10/2020 – 05/2021

Kraków

- Resolved customer questions and issues
- Supported customers in using bank products and services

ACHIEVEMENTS

Finalist, 15th edition of the "Zbadaj.to" student competition (2025), organized by PTBRiO (Polish Society of Market and Opinion Researchers) and OFBOR (Polish Organization of Market Research Companies).

SKILLS

Research methods: in-depth interviews (IDI), user testing, survey/questionnaire design, qualitative coding & thematic analysis, basic statistical analysis, business communication in market research, completed coursework: questionnaire design, business communication in market research, marketing research workshop
